TUESDAY, JUNE 17, 1884.

ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Berlin, 14th.

It is said in well-informed circles that the Emperor will shortly leave for Gastein (Austria) where he will meet the Emperor Francis Joseph.

PRESS TELEGRAMS

Montevideo, 16.

Amicis attended the fete at the Mad House yesterday.

The ball at Mr. Shaw's to-night will be splendid. Three hundred invitations.

The Guienne from Bordeaux has arrived.

Weather bitterly cold.

Two steamers go up.

Rosario, 15.

The police were called in at the theatre last night, to force the baritone to sing; but they could not manage it.

Severe frost in the camp.

The Pacific Railway company is about to send 6000 tons of materials to Villa Mercedes in bullock carts, as no waggons are to be had on the railway.

Provincial Bank pays provisional dividend of 4 per cent.

GUAMINI RUINED.

Congress has just afforded the country another proof of its errors, of the incapacity of its members to keep up with the onward march of the country. It must be known to everyone in Buenos Aires, even to the little boys that sell the newspapers in the streets, that before the year 1879, say 5 years ago, there were no such places on the map of Buenos Aires as Puan, Carhue, Nueve de Julio, Trenquelauquen, Poitague Chapaleufu, and these places have sprung into existence of recent growth, and most of the towns around these imaginary centres are now settled on, stocked, wire-fenced, and form contributary elements to the country's progress.

Mr. Frederick Espeche, Congress deputy, aware of the great want of population on those remote camps and the urgent necessity of taking some steps to form country towns, had the good sense to introduce a bill for the purpose of starting small agricultural colonies of 300 families at each of the above named places, and giving free farms etc. to each family, besides house, seeds, agricultural implements etc. No better, or wiser, or more patriotic measure was ever laid before the house, yet, will it be credited, that the committee to whom the measure was referred rejected it and Congress, in full session, approved of their report?

The grounds upon which this committee threw out the measure were simply that as all those camps have been purchased and stocked and settled on by private parties, Mr. Espeche's measure is now no longer necessary. That a committee of two or three Deputies should frame such a report is infinitely less surprising, less humiliating, than that the whole House of Congress should, "nem con," approve of such retrograde legislation. If Congress were held in San Luis, not Buenos Aires, one might stomach such nonsense; but, aware as everyone is of the desolation of these embryonic Argentine Liverpools, Manchesters and Glasgows, wretched attempts at country towns where all the camps around are covered with cows and yet not a point of milk or a pound of butter can be had for love or money; where 2 billiard tables and 6 pulperias and one miserable 'fonda' form the total make-up of the village, and even the vegetables at the 'fonda' are brought from Buenos Aires; these are the centres of our rural population, and these the places of all others most adapted for starting good agricultural colonies. But no, these enlightened Congress men want to start agricultural colonies in the most out-of-the-way spots, where the struggling "gringo" may starve and perish, whilst in the rich fertile grain growing lands of Guamini, Carhue, Puan etc, in the opinion of our Congress men it is not opportune to start 300 European farmers. There is really no public opinion in a country where such despicable legislation passes without even the tribute of a reproof. If every member of the House of Deputies slept on a "recado," even still we should cry out against such scandalous legislation—Mr Espeche is before his time. Let him stand aside with his project for a while longer.

THE FROZEN MUTTON TRADE.

There is now so little published in the papers about this all important trade that one would suppose the great interest it created last year expired with the shipment of a couple of mutton cargoes, and that Argentines having proved to the "Ingleses" the feasibility of supplying Leadenhall St. Market with fresh frozen River Plate mutton at 5d. a pound, it now remains with the consumers to push the trade for their own account, who if they want our mutton, may at least send out to Buenos Aires for it. We are all so well off in the Plate, so prosperous, well fed, well clothed, and well supplied with life's luxuries, that what is everybody's business is no one's, and all the new frozen mutton companies that were so talked of last year have resulted in nil. Not even the Rural Society has stirred in this matter, so essentially within its programme and jurisdiction. We suppose the farmers and estancieros expect the London butchers will, like the French wool manufacturers, send out London artista butchers to buy the 'capones.' The supply of frozen mutton in London has only reached one thousand carcases a day, which for a city of 4 millions of inhabitants may, as our London Correspondent aptly remarks, be considered as but a drop of water in the ocean.

The *Mark Lane Express* of May 19th, which we have just received by the French mail, publishes the following toothsome article on this subject, which will doubtless be read with some interest by a few of our subscribers. With a little push on our part, and fast sailing steamers, we believe we could successfully compete with Australia, New Zealand, Canada and even the United States in this trade; but such is the supreme apathy of our farmers and estancieros that, we doubt, if a frozen mutton company was started to-morrow on the Bolsa, if they would subscribe for a share in the concern, and when the London butchers send out to Chascomus to buy our fat 'capones,' we may expect another frozen mutton spurt.

Our London colleague says:—

From the monthly returns now issued by the Board of Trade in a comprehensive and tangible form it can be more readily seen how the imports of meat, both alive and dead, compare with those of the corresponding periods of former years. Thus the Customs *Bill of Entry* gives us the figures for the first four months of 1887, January to April inclusive, comparing them with the corresponding periods in 1883 and 1882 as below:—

Number of	1882	1883	1884
Oxen and bulls..	71,903	84,394	89,778
Cows.....	16,250	17,242	23,054
Calves.....	8,300	11,040	15,880
Sheep and lambs.	329,250	340,637	297,018
Pigs.....	2,276	3,923	6,383
	Cwts.	Cwts.	Cwts.
Fresh beef.....	225,631	286,615	299,105
Fresh mutton....	73,782	73,396	149,528
Fresh pork.....	10,263	23,695	29,135

These figures show an increase all round excepting in respect of sheep and lambs. The great increase in fresh mutton is, of course, due to the rapid development of the frozen meat trade, which has now attained a stage which shows an average receipt of over 1,000 carcases per day. When it is considered that the Australian colonies contain about 80,000,000 sheep, and that there are supposed to be over 100,000,000 in the districts of South America tributary to the River Plate—the Argentine Republic and the Banda Oriental—the fact becomes pretty plain that this export frozen mutton trade from young countries in the Southern Hemisphere is as yet only in its infancy. For the present the value of the *best* home-killed mutton will not be likely to be affected by the import frozen mutton trade, but for everything short of the best there is a growing feeling that prices have already begun to be affected. Mutton—the one scarce and dear thing in this country—has been depressed in a marked manner, and it is more than probable that within the next three years the supply of frozen mutton to London will be very much more than London can consume, and when London becomes the receiving and distributing port for such an enormous quantity, leaving Liverpool to deal with the bulk of the La Plata consignments, it is plain that quotations for frozen mutton on rail in London will form one of the ruling price factors in the English mutton trade.

It would be folly for British and Irish producers to shut their eyes to this. It is impossible to say what the storm will be, or where it will fall with greatest force, but there is the black cloud already far above the horizon—a great deal bigger than a man's hand—and it is coming up fast *against the wind*. It looks very much as though the Cattle Trade Defence Association, the prominent leaders of "the enemy," and cattle-disease mongers of all sorts and sizes, would do well to gird up their loins and run, for there is sound of an abundance of mutton.

So far we have been considering the import trade in frozen mutton only, and there is enough in it to warrant the fear lest what was supposed to be the British farmers' sheet anchor has loosened its hold. The mutton trade has always been considered the last thing likely to fail the British producer, and yet it is not unlikely that it will be the first animal product seriously affected. Frozen beef does not answer, so that the vast herds of excellent bullocks in Queensland and New South Wales are not at all likely to appear on our markets in that particular condition. But it must be borne in mind that the United States is north of the equator, and that, *therefore*, her meat produce can and does come to us refrigerated, and not as frozen meat. The time will surely come, sooner or later, when all our meat supply from the United States, Canada, and the Continent of Europe will come as refrigerated fresh meat, leaving the southern hemisphere to supply us with frozen fresh meat; and when that time has arrived the British farmer will find that he has in reality to measure his strength with Uncle Sam in respect of the beef trade.

In the matter of a refrigerated fresh beef trade, there is no country in Europe which can compete with the United States of America. With 800lb. carcases of excellent quality at 6d. per lb. landed, Uncle Sam can knock all the Continental rubbish out of our markets, aliveor dead, and make it a very difficult thing for the Tonnings, or even the Peninsula cattle, to keep a foothold here. It is impossible to form an opinion as to what the export mutton trade of the United States may be, because no attention has yet been paid to it, and the sheep are not ready; but the export beef trade will one day be enormously increased. Whilst we in England have been messing about with new foreign restrictions and new internal regulations, Uncle Sam has been demonstrating to his own satisfaction that if it is practicable to slaughter beef in New Yorkand ship it to London or Liverpool, it is equally practicable to slaughter the same beef in Chicago and lay it down in the same markets in equally good condition. Impressed with the economy underlying this discovery, he next grasped the idea that the beef should be slaughtered at its starting-point, however "far west" that may be; and the first result of the demonstration of this possibility has been the revolutionising of the domestic meat trade of the United States, and leaving the export trade out of consideration, it has been found more economical to slaughter at Chicago for consumption in New York than to send the animals alive from Chicago to New York for slaughter. This has been done in spite of immense opposition from railway companies, salesmen, butchers, and Abattoir Companies, and the American people have chiefly to thank "King Philip" Mr. P. Armour—for, at least, the rapidity with which the change has been made. All that has been going on has been recorded from week to week in this column, yet "vested interests" in this country, aided by a sympathetic Government, have kept the people as blind as bats to the true economy of the whole thing. It is a pity "King Philip" does not come over here and amuse himself by stirring up the dry bones of our antiquated but powerful monopolies.

"LA HEBREA"

Hallevey's great opera is said to be a favourite with Tamagno, and although he sang the role magnificently on Saturday night, Petrovich, who is nothing as a tenor compared to him, produced much more effect in the same part of this opera last year. There is certainly a good deal claimed for discriminating applause, and the Hebrea is an opera that lays peculiar claim to this distinction; to it therefore we will assign the almost perfect silence that greeted some magnificent efforts on the part of the prima donna particularly, and although in truth, at times of the other artists also.

Without wishing in any way to detract from her triumph, we might observe that the Jewish garb ill becomes Mdlle. Theodorini, and she had a predecessor who as Rachel was most strikingly attractive, Mdme. Gabbi; the costume is quaint and too trying for any one except a remarkably pretty Rachel, and certainly we can compliment our present prima donna on looking a far better Christian than Jewess. Otherwise, there are few Rachels that show such artistic fire or delicate grace. It is acknowledged to be one of the most perfect of her impersonations, and she certainly earned a triumph. In trio, duo or solo, her voice rang out distinctly and clearly; in supplication as soft and melodious as a bell, and at times wondrous in its majestic volume. Tamagno, of course, sang as only he knows how to sing. It is certainly a heavy opera and so suits him admirably; yet, except in the great solo of the fourth act, he was little applauded. The basso, Tamburlini, like an inquisitor of old, was well up to his part, and his round, sonorous voice and grave impassioned manner, although he sometimes allows himself to become slightly monotonous, carried their full weight. Mdlle. De Vere sang her minor role perfectly. It is absolutely certain that the recent demonstration could not have been levelled at her, as she possesses a beautiful, although not very powerful voice, and is a thorough artist. Figner played the prince very successfully, although he has not got the voice of his predecessor Lazzarini, who by the way was also made the subject of an extremely disagreeable sensation in the 'Barber.' The chorus was barely creditable and the ballet ditto. The house was full, which is an almost nightly wonder, considering the fancy prices that have to be paid for a seat of any kind, anywhere, anyhow.

J. L. M.

ANECDOTE OF THE WAR OF INDEPENDANCE.

In the year 1816, when San Martin was mustering an army to fight for liberty in Mendoza, boys as well as full grown men, rich as well as poor, all were filled with a patriotic enthusiasm that made them abandon their peaceful occupations to wear the uniform of the soldier and to shoulder a musket.

Full of enthusiasm a rich lady of the town of Mendoza, Adela Rocamora, had seen her husband and three sons in the ranks of this army, and had placed her fortune at the disposal of the general for the acquisition of arms. In the beginning of the year 1817, the drums were beating and everybody ran to see the General reviewing his brave soldiers. With tears in their eyes, the mothers, half sad, half joyful, bade adieu to their sons.

From amid the crowd, a lady with stately steps, walked into the middle of the ranks, and gave four scapulars to four soldiers who kissed the maternal hand of her who had seen them grow from their childhood to the day they entered this gallant army. The heroic woman with trembling voice addressed them these few words: "Let your country weep for you, rather than you should weep for your humiliated country. May God protect you, and your courage not fail you." It is useless to state that this lady was no other than Adela Rocamora. The peaks of the Andes almost shook with the cheers, spontaneous hurrahs that broke from the soldiers hearts. But amid the cheers four voices were destinctly heard to repeat: "we shall die for our country."

Half-an-hour after this moving scene the soldiers, shouldering their guns, bade one long adieu to their country, their friends, and their relations. . . . . .

Eight years had passed, and this phalanx of heroes had triumphed in Chacabuco and Maipu, and proclaimed the independence of their country in the City of the Kings. Under the burning sun of the Equator they had carried away the palm of victory.

It was a glorious day for Mendoza, when in the month of April, 1826, four soldiers marched into the town, their breasts covered with medals, and entered a house of the city. A lady came out to meet them. No words were uttered, but the proud wife, the valiant mother clasped in her arms those that were dearer to her than life.

ROSARIO.

(From our own Correspondent.)

June 13th.

The Province of Buenos Aires is trying a singular experiment, that of building up a city near the gates of one already grown up. The enthusiasm of the moment, and the indomitable exertions of Governor Rocha have certainly given, up to the present time, very extraordinary results, that promise to crown the vast project of Dr. Rocha with success. His aspirations, as we know, are that the new Capital of the Province shall eclipse in grandeur and prosperity the old Capital of the Nation, from which it is separated by barely a score of miles. The principal foundation for this hope is of course the harbour of Ensenada. If the Provincial Government succeed in making a first-class harbour in front of La Plata, they may count on a great impulse being given to the business importance of the new Capital; and that, I suppose, is the great ambition of Dr. Rocha to make La Plata the great emporium of the nation, and relegate Buenos Aires to the simple position of a political capital. My opinion from the first was that the provincial great men committed an error, and that their new town would never be any thing more than an adjunct or outlying skirt of Buenos Aires; that their only chance of one day rivalling this latter city was to found their new Capital on a good harbour on the Atlantic, as far away as possible from Buenos Aires, Bahia Blanca for instance.

What put this subject into my head this morning was the fact of our neighboring port of San Lorenzo fast assuming a considerable importance. The Government, in its anxiety to destroy the political power and influence of Rosario, which is hated and feared in "Sleepy Hollow," removed San Lorenzo from the jurisdiction of this Department, and made it the capital of a new one, although only a dozen miles distant. So, in a very small way, there is a certain analogy existing in the situation of Buenos Aires and Rosario, both threatened by the upstart growth of rival towns at their very doors. The cases are, however, not parallel. La Plata is springing from a political evolution; San Lorenzo from the growing necessities of agriculture and commerce. It has always been a political 'point d'appui' for the barbarous government of Santa Fe, to dominate the liberal elements of Rosario. The Commandante General of the Department resided there, and this personage could always bring into the town of Rosario a thousand or a couple of thousand of free and indepedent gaucho voters, whose voting tickets he carried in his own pocket. Now the old Department of Rosario is divided into four, and San Lorenzo is the capital of one of them, with the former 'Comandante' as 'Gefe Politico. However, another and a more healthy element has entered into the life of that little town, the element of commerce. San Lorenzo attracts to its excellent port the grain of a large cultivated region. The adjoining colony of 'Jesus Maria' produces enough to load a large number of sea-going vessels, and steamers that come to Rosario can with the same facility reach San Lorenzo. The consequence is that the latter port exports as much if not more wheat and linseed than Rosario, as it is nearer the great producing centres. The southern part of the province is more pastoral than agricultural, although it is possible the latter may oust the estancieros as population increases. A large proportion too, of the agricultural products of the Central Argentine Colonies, does not come to Rosario at all, but is shipped to the Upper Provinces, some of which are continually short of breadstuffs, in one year it being Cordoba and Santiago, in others Tucuman and Salta, or Catamarca and Rioja. This is owing to droughts which occur every year in one or more of the Upper Provinces. This year an enormons quantity of wheat and flour has been sent up the country on the Central Argentine railway, which otherwise would have been shipped in this port to Europe.

The facilities for storing, cleaning and shipping wheat in San Lorenzo are admirable, and there is a larger capital employed than in Rosario. The deposits of Mr. Burmeister will contain 270 thousand bushels. The Granaries of Mr. William Kirk are splendid; those of Messrs. Ledesma, Landeta, Aldao and Freire, all have large deposits and cleaning apparatus and machinery, and facilities for loading grain only surpassed in the province by Messrs. A. S. Hall's barraca, in Rosario. From these facts one may come to the conclusion that it will be San Lorenzo and not Rosario that will be the Chicago of the River Plate, particularly if the project of a railway from the former place to the colonies of the interior be carried out.

The Granaries and Elevator in Rosario are certainly a credit to the country, but their utility is very much compromised by the unlucky selection of the site on which they are built, on a very small piece of land, just at the western entrance of the Central Argentine Railway, where the confluence of trains, traffic and rails block up to the Elevator into a corner inaccessible to carts and waggons, and cause great delay in the dispatch of railway waggons with grain for the establishment. This has given rise to a rather burning question between the Central and the Santa Fecino Railways. The latter, of course, wants free admission over the rails of the former, to the Elevator. Had this establishment been in an open free space, of course no objection could have been raised; but one can easily understand the great inconvenience of the waggons of another line entering into this limited area, already too small for the traffic of the Central. Both railways would suffer as well as the Elevator. The trouble originates from the primary error of building the Granaries where they stand. However, it is no more than justice to admit that if any of the companies are to suffer prejudice, it should not be the Central Argentine, as they were first in the field, and are on their own property. The Santafecino Railway already has a crossing over the Central rails, nearly in front of the Elevator, so that I do not quite understand what the present dispute amounts to; but it is evident that the Central sustains the queer idea that their rails are their own property, and the other company think they have an equal right to them.

The last balance of the Provincial Bank gives a "rest" of nearly a million and a half in coin with an emission of $1,847,000. Discounts, upon accounts and "debtors," six millions and a half. The item of $2673,000 to the latter account might be the better for a little explanation, which your correspondent is not in a position to give. "Various creditors" and running accounts sum up nearly three millions. The paid up capital is put down at $3,591,665. The Government debt is 860, thousand; what it is with the Santa Fé Branch is not known.

The dry goods store which occupies the central position bought by the National Bank is advertised to be sold by auction. From this we may conclude that the Bank will soon commence its building, which, from what I can learn, will be very handsome, and a credit to Rosario.

The winter is on hand and nothing has been done to remedy the fearful condition of our streets. The Municipality has allowed them to fall into utter ruin. One cannot go out without seeing a broken down vehicle. Ordinary axle trees and springs cannot stand the fearful shocks of jolting into stony holes of a foot to two feet deep with which every street is full. It is a fearful martyrdom to go a couple of squares in a carriage.

W. P.

LATEST FROM RIO.

June 8th.

The ministerial crisis which had long been considered highly probable, in view of the strength of the conservatives in the Chamber of Deputies, in which they hold 46 seats, their uncompromising hostility to the ministry, especially to the President of the Council, Sr. Lafayette, and of the defection, upon various pleas, of several liberals, especially of late, has finally occurred.

In the Chamber of Deputies, on the 2nd, a preliminary skirmish was adverse to the Cabinet, and on the 3rd both ministerialists and oppositionists developed their full strength, only three deputies of the 120 being ab After three more liberals had nounced their secession from the ministerial ranks a vote was taken o presidency of the chamber and the ministerialist Sr. Moreira de Barros w elected by a majority of only two vot including those of the four ministers, over his competitor Sr. Rodriguez Junior, ex-minister of War, who obtained 57. A motion of want of confidence was at once made, but with the votes of the ministers was rejected by 60 to 56.

Justly considering that government would be impossible with so narrow a majority, the resignation of the cabinet was presented by the President of the Council, the same afternoon, to H. M. the Emperor. After a long audience, Sr. Lafayette, by order of His Majesty, called upon Senator Saraiva, to invite him to the palace at 9. p. m. Sr. Saraiva, in consequence, went that night to S. Christovao and again next morning, but excused himself from undertaking to form a ministry.

Notwithstanding that the new cabinet has talent and parliamentary and administrative experience and the Liberal majority have agreed to give it their undivided support, it is not probable that more will be attempted than to complete the Estimates of Revenue and Expenditure, which should come into effect upon the first of July, but which, it is now evident, cannot be completed for at least a month later, requiring, therefore, notwithstanding their discussion was commenced at the middle of the session of 1883, again the hurried passing of a bill prolonging the Estimates of the current fiscal year.

As the four years mandate of the present Chamber of Deputies expires with the present session, the election of the new chamber will take place this year, soon after the close of the session, and it is therefore improbable that the cabinet will consider it advisable to anticipate the regular vote of the electoral constituency.

The Minister of Agriculture has awarded the new gas contract for the lighting of Rio to Dr. Carlos Theodoro de Bustamante, his tender being the lower of the two. Even after signature, however, the contract remains subject to the approval of the imperial legislature, until which approval has been given the contractor is not bound to execute the contract, after paying the Rio Gas Company for its plant.

Yellow fever continues to decline since the setting in of cool weather, and the average daily mortality has gone below one. The epidemic being thus virtually at an end the Montevidean authorities ceased on the 4th all quarantine precautions against Rio and put all vessels in free pratique.

In May the custom house of Rio collected from Imports and Exports the sum of 3,623:607$, against 3,262:986$ in May 1883, viz: from Imports 3,023:232$, against 2,952:566$, and from Exports 600:375$, against 310:420$.

The police arrested at the end of May the Italian Giovanni Volarti, to be deported, by order of the imperial government, as a disorderly and dangerous alien.

A telegram from Pernambuco reported a strike on the 5th, of the custom house labourers, because of non-payment for three fortnights, and consequent interruption of custom house business.

LONDON LETTER.

(From our own Correspondent.)

GENERAL GOSSIP.

May 19th.

A telegram is knocking about the papers from the Argentine Republic, announcing that Mr. Callan is so pleased with the prospects for an Irish colony in that country that he intends returning there next month. The "telegram" evidently comes from the B. Aires *Standard*, where I happened to read it, and I see it means that Mr. Callan was in the Gran Chaco, or somewhere, and intended to return to Buenos Aires next month.

In regard to the financial crisis in America, the *Times'* correspondent says:—

"It is believed that the extensive liquidation which has been accomplished, and also the vast amounts of money which have been drawn to New York will enable Wall-street to tide over its difficulties. It is estimated that 40,000,000 dols. in money have been sent to New York from other American cities, Canada and Europe. Some of the London bankers have testified their willingness to lend large amounts on the security of Government bonds. These movements eased the excessive loan rates and also strengthened the prices of bonds. The Treasury will, if necessary, buy bonds for redemption in the open market, making immediate payment. Trading circles outside of Wall-street now begin to feel ground, though, owing to the panic, commercial paper is difficult to place at any figure. Mr. Russell Sage concluded his wrestling match, with the 'privilege' holders yesterday, compromising with many of them at a discount. The newspapers are filled with amusing reports of this wily operator's manœuvres. In order to avoid a postponed payment many of the holders sold his paper at half its nominal value. Mr. Sage says he paid away 7,000,000 dols. in three days, and that he has disposed of almost all the demands. It is believed that he has lost over 5,000,000 dols. by the panic, the result of the financial cyclone [illegible]. If desirable; written an enorm[illegible] ser gross-sum including whose pre[illegible]ee, cost and disbursement of has been e[illegible] or other practical and lawful engaged [illegible]ents accepted. [illegible]ees to Clients, on easy terms, on him ha[illegible]ved intrusted business. monthly statements posted to streets reporting progress of law-suit. —Business taken charge of in the Interior and the enforcement of Argentine Judgments abroad &c. F.)—When not retained as Solicitor for either party; may be appointed as Arbitrator or Umpire. G.)—Matters handled with Honesty, Despatch and Skill. Competent Counsel's opinion taken on all doubtful points. Disreputable affairs and mere pettifoggers declined. H.)—Clients wishing to prevent the possibility of law-expenses or their deeds being void; can fix a fixed sum, have articles of Partnership, Contracts, Powers, Wills, Leases, Mortgages, Reconveyances, Purchases, Sales and Assignments, etc, drafted by us (according to the applicability of the principles pointed out and peculiar facts and to[illegible]) and their execution there all judicial, and Register for[illegible]dos."

By the Lamport I sent you all the crisis in New York as far as to sound-ness of the conveyance and origin[illegible] ment we are in, when feasible, in order Monday, at present my enjoy a good mar[illegible] the tender [illegible]rge made for short [illegible] have bu[illegible]like Consultations. Spanish, last few [illegible]sh and German spoken. magic int[illegible]man, Physician or Member of the of summer [illegible]without distinction of nationa[illegible]creed—the above-named Solici[illegible] In this [illegible]over the whole of his fees to hear of no[illegible] charitable institution have Queen Adelaide[illegible]d by the latter.) Gation. Queen Adelaide, they seem to think, will be reserved to take her revenge of Busybody in the "Oaks." Beyond racing affairs and the meeting of the coaching clubs in the parks, and the rejoicings at the victory of the Oxonian cricketers over the Australians, there seems little or nothing stirring in London.

The Queen is as still as a mouse at Windsor, and the Prince of Wales is at Royat, in Auvergne, where he purposes to take the waters and enjoy repose for three weeks; he afterwards rejoins the Princess and the children at Wiesbaden. That excellent relative of theirs, the Grand Duke of Hesse, who scandalised the world by getting morganatically married to Madame Kelomine, on the very day of the Princess Victoria's wedding, has soon repented, and is striving to get the marriage annulled. They did their best to tell us that no such scandal had occurred, but the truth is he is very much married, and the dissolution of the bonds will tax the ingenuity even of German and courtly lawyers, who, one might have said, a day or two ago, in common colloquial English, are the "very devil" at that sort of thing; but you will be pleased to know that such a vulgar expression no longer can describe the mere cleverness of our friends. Mr. Spurgeon has come to the conclusion that the party so often colloquially referred to is not to be credited with any vast intellectual powers.

The Rev. Mr. Spurgeon, preaching yesterday at the Tabernacle, in commemoration of the Wycliff Quincentenary, told us, "the devil had grown a little wiser than he used to be, but he was still a great fool, for if he looked back he would see that he had been the means of spreading the Gospel by the very opposition he had used against it." Spurgeon is a very clever man—very; but were it a question of pitting him against the—No, I don't see how it could be done. For my part, I retain my old superstitions in spite of these new-fangled scepticisms.

You know everything long before we do, and, I dare say, you will have heard that on June 5th prox., our dear old friend, "The South American Journal," is to come forth in a newly-designed cover, in resplendent colours, emblematical of a new life and of energies to be imported into its columns, fresh from the Pampas, by a gentleman who was but lately inspired by their breath. All the literary and scientific talent of the South American world in London is to contribute to its columns. The "South American Journal" is henceforward to be hailed as the commercial and political adviser of diplomat, financier, merchant and engineer in London, and will be looked forward to by farmer and trader from Antioquia to Punta Arenas, as a bimonthly compendium of art, sport, literature, science, agriculture and commerce in Europe. That's a fact; and it is about the only one there is to tell you.

If mails will go on Mondays the tally of bricks must wait for the straw.

LETTER FROM THE MAHDI.

Our Cairo Correspondent sends us the following copy of a letter from the Mahdi addressed to the Mufti of Souakim and his followers:

In the name of God, the clement and merciful, glory and honour, health and prayer to our Lord Mohamed and his followers. To our friend in God Mufti Kalifa Mohamed El Safi, son of Abou Bekr, and to all his subordinates, whom God has inspired for the revival of his reign and the propagation of his chosen religion, health on the part of his servant of God, Mohamed El Mahdi, son of Abdalla. Do not forget, all of you, to whom I address this epistle, that power and strength are in the hands of Allah, from whom we all proceed, and to whom all things must be rendered. He is the Lord of Heaven and Earth. He distributes kingdoms as is pleasing to His omnipotence, and takes them away in like manner. Do not lose sight of this, oh! you to whom God has given right. Shake off the torpor in which you live. Do not allow yourselves to be deceived by the vain world which environs you. Know that you are surrounded, all of you, by a deceitful mirage. Do not forget the kingdoms and empires which have preceded you, the names of which have resounded through the ages in the four corners of the earth. Reflect that of their greatness but a few ruins remain to recall to us their vanity. Me-

A Derangement of the Liver THE CAUSE OF DISEASE IN THE STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Albumen and Peptone, and in these forms enters the portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vein, into the great circulation. The new material now formed serves two purposes; viz: the maintenance of heat in the body, and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as [illegible] you now before me know, to compound [illegible] that will act readily and give treasures they [illegible] and therefore have [illegible] those who remain unm[illegible] active and great things which God is ab[illegible] perform, and know that as to this God has written upon their foreheads that they are the prey of eternal suffering, the flames of which are never extinguished. Last of all, know that all those who die will be propagating the holy religion of God, will be placed amongst the number of His saints, and will enjoy all the promises which God has made in His Holy work. That is all I have to say to you. Woe unto you if you do not hear my voice, and woe to all those whom God in His anger has rendered deaf to the word coming from on High.—Health.

"Hoja de Oro"

Santa Catalina,
Azul, March 13th, 1884

Tomas Drysdale y Co.

Dear Sirs,

I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.

After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

Yours truly

ON 'CHANGE.

June 16th, 1884

Cedulas A	100½
Cedulas E	89½
Cedulas F	84½
National Bank Shares....	151½
Scrip	69½

The week has opened with a bearish at- mosphere round the ring, which is palpable in the share and Cedula speculation. There is no buoyancy in the market, and there is a heavy appearance about operations. Not the least remarkable feature of this morning's spe- culation was the unexpected appearance of the great and popular cattle-broker, who abandoned cows and 'novillos' for the moment to sell National Bank Shares. There was a stand-from-under feeling prevalent, and this unusual circumstance helped to bear the market. About 3,000 shares were sold for the end of the month; the market opened at 152½, fell to 151½, and closed firm at 151½, with buyers. Two hundred shares were sold for July at 153½ and 153.

Much importance was attributed on 'Change to a paragraph which appeared yesterday in the columns of a morning colleague announcing difficulties in the negotiation of the Thirty Million Loan. The prominence given to the paragraph in question and the influencial re- putation of the newspaper, both combined to depress the market, and much of this morning's weakness must be ascribed to the announce- ment in question. This morning nothing further was known with regard to the loan than what transpired on Saturday, viz:—that negotiations were progressing and that the bond would be signed this week.

Bank Scrip looked heavy this morning, and one hundred only were sold for the end of the month at 69½. There is little change to report in the Scrip, as the rate is maintained, although the market looks duller than last week.

The bears floated a rumor this morning that propositions were made to a well known dealer, who sold out this month, to reenter the bull wing under the most favorable condi- tions, but that the offer had been declined with thanks. This rumor was the subject of much comment in some circles. "Si non e vero e ben trovato."

Cedulas made a faint stand to-day. A few thousand Series A changed hands at 100½. Twenty thousand Series E were sold for the end of the month at 89¾-½. A few thousand Series F were sold cash at 84½, and 25,000 were sold for the end of the month at 84½. The market closed with sellers of Series F for to-morrow at 84½.

The exchange market continues at a stand- still; the State Banks refused to draw this morning, and applications were put off. Ex- change on Montevideo is quoted at 2½. The money market shews no change; discounts are quoted at 6½ to 7 o/o.

Thirty square leagues of land, situated in the Province of Mendoza, about twelve leagues from the capital, are reported sold at the rate of 600 m/n in yearly payments. Purchaser one of the greatest landed capitalists in the country.

A square league of land, situated in Bolivar, district of this Province, was sold cash to- day by the well-known broker Mr. J. M. Benitez for 400,000 $/$. Seller, Mr. J. A. Rodriguez; buyer, Mr. Luis Canesa.

Ten thousand 'capones' from Mr. Cano's splendid estate in Pergamino have been sold to a matadorista of Barracas al Sur at reserved rate. The price is supposed to range between 55 and 60 $/$ per head.

Ten thousand 'capones' are also reported sold in the Carmen de Areco at 55 $/$ per head. Seller, Mrs. A. Kenny. Animals to be de- livered up to end of September.

Mr. M. Dolz, the popular Secretary of the Bolsa, has applied to the several Railway Companies in the country, to the Engineers' Department and to the Post-Master General for maps of the railways and telegraph lines in the Republic. This is a move in the right direction and will meet a long-felt want. The Bolsa also wants more maps of the Provinces.

The Once is flooded with grain. The ar- rivals of wool to-day were insignificant, about 300 @ in the station. All the sheds are full of wheat and maize.

The fine new steamer Para to-day engaged 1,500 tons wheat to load in Rosario for Ant- werp. Brokers, E. Peake & Co.

The following were the sales at the ring during official hours:—

Cedulas—

For cash A 10,800 at 100½
For June 30th E 20,000 at 89¾-¼
For cash F 2,600 at 84½
For June 30th F 25,000 at 84½
Sales, 58,400

National Bank Shares—

For June 30th 2,950 at 152½-½-152-151½ to 151½-¾-½-½-½-¾-½-¾-¾
For July 31st 200 at 153½-153
Sales, 3,150

National Bank Certificates, 40 o/o paid— For June 30th 100 at 69½

Effective left Baradero to-day after loading 18,000 bags maiza for Hamburg.

Norfolk is loading 17,000 bags maize at San Pedro for Hamburg.

Pascal loading 10,000 bags maize at Cam- pana for Antwerp.

Vandyck loading 12,000 bags maize at Cam- pana.

Hogarth sailed yesterday and leaves Mon- tevideo to-morrow, direct for Southampton.

Helbein comes up to-night with 2,365 tons cargo for here and the Parana.

Resse left Rio for Montevideo yesterday.

Thales passed St. Vincent and will be at Montevideo to-morrow.

Myrtle Branch left Middlesborough on 19th ult. with 1,500 tons of railway materials for Campana and Rosario.

Galileo, from Liverpool 24th ult., will be due at Montevideo to-morrow.

Cuvier passed Martin Garcia at 8 a.m. yes- terday for Rosario.

Ranmoor arrived down yesterday from Ro- sario and left for Montevideo.

Castleford sails to-day for Antwerp.

We have received a letter from a R. Grande sus- criber at present in Liverpool, who on leaving this received from President Roca a number of Latzina's maps and tables for distribution. He says:—"I sent and gave away all the maps which interest all and hope may bring forth fruit to the benefit of the country and its population. I sent one to the Lord Mayor of Dublin, and the Mayors of Cork Limerick Galway, Derry and Belfast, with polite notes, but none of them had the civility to acknowledge either. Do they know where Buenos Aires is or do they want to see their population leaving home. I think there is something in the letter. Our correspondent who has a wide circle of friends in Buenos Aires, will pay a flying visit to the Plate in August or September.

Mr. Peake, of Rosario, was welcomed on 'Change; he is the concessionaire for a very important line of proposed tramways in Rosa- rio, which we hope to see carried out.

The Minister of Hacienda, Dr. Plaza, did not attend the Government House to-day, and we hope that his health continues good, although the weather is indeed very trying. There was nothing whatever new about the Thirty Million Loan; we believe that in a day or two the General Bond will be signed. Owing to the great speculation going on in Na- tional Bank shares on the Bolsa, all sorts of rumours about this loan are spread by the brokers. It is sufficient, however, for us to state that, should the French Syndicate fail to carry the business through, there are other parties ready at once to take it up and carry it out on perhaps still more favorable terms than those arranged by that Syndicate.

Mr. Langworthy leaves to-morrow for his colony in the Gran Chaco, and will not return for probably three months. The name of his colony is "Colonia Florencia," an enterprise of very great importance for this country.

We hear that an English company is being formed in London to work the Lime-stone business at Parana, under concession granted by the Governor of Entre Rios. Owing to the great block up of traffic on the Central Argentine Railway very little lime now comes from Cordova so that there is every prospect of the Parana Company doing a large business.

From the Plaza Once de Setiembre we have the following:—

178 waggons arrived with produce.

The arrivals were:—

6,200 @ of wool
2,452 bags of wheat
1,843 bags of maize
1,500 bags flour
534 bales of hay

and much other produce.

Little business done to-day. Hides, sheep- skins and wheat stustained their prices; maize and wool and other produce continue flat.

The sales were:—

Wool—

100 @ borrega, 74, Chillado
300 borrega, 72, Ojca

Total, 400 arrobes.

Cow Hides—

620 camp at 152, 150

Hair—80 @ at 151, 150

Cow Hair—Per ar. at 95

Tallow—20 bordalesas at 41

Sheepskins—

Per doz. camp and desechos, 10-10, 8 rls.

Matadero at 20

Total, 2,300 doz.

Corderitos, 200 doz. good at $14½

Wheat—Per fan. Costa, 92

Wheat—Per fan. from Salado, 80, 65

Total, 430 fanegas.

Maize—Per fan. morocho in grain, 51, 46, 45, 44 and 43

Maize—Per fan. yellow in grain, 44-40, 35

Total, 1,785 fanegas.

Barley—50 fan. good, 44

Hay—120 bales sup. and mixed at 500, 300 per ton.

At the Plaza Constitucion the following business done:—

38 waggons with produce arrived.

The arrivals were:—

650 @ of wool

and other produce.

And at Barracas—

200 bales wool
3,598 capones
13 pigs
51 doz. sheepskins
6 pipes tallow
12 bordalesas tallow
71,600 kilos stones
5,090 kilos of bones

and other produce.

Prices of produce in general continue flat.

The sales were:—

Wool—

1,000 @ sup., 92, Bonifacio
1,000 do, 90, Chapar
500 do, 90, Somosa
120 borrega, 75, do
2,000 @ good, 32, 70, 60, Trellez & Son
1,000 @ reg., 82, 75, M & Rodriguez
200 borrega, 55, Ortiz
450 do, 55, Bonifacio
100 @ black, 55, Leguineche

Total, 5,370 arrobes.

Sheepskins—

Per doz. camp sup., good, corderos and des- echos, 21-13, 10 rls. lb

Total, 850 doz.

Corderitos, 940 doz. at $15, 14, 12½

Cow Hides—

190 camp, good, 154, 153, 150

Hair—240 @ at 160, 158

Potro Oil—28 pipes at 43

Hay—30 bales at 600 per ton.

In spite of the inclement weather and the muddy state of the streets, the new Capital La Plata was crowded with visitors yesterday. Mr Fernando's auction was well attended, and bidding was spirited from beginning to end. The auction gave over three hundred thousand dollars. The news of the new Bolsa scheme has produced a most favorable impression in La Plata.

The salvage of the Natale Gallino has been effected with success, but it appears that part of cargo of the barque is missing. Mr Miha- novich returned yesterday from the wrecked barque with the unwelcome news. As this barque was abandoned by her crew this is not to be wondered at. The Doli towed the barque in to-day.

The fine new steamer Leda, of the Platense Company, will be put on the Uruguay, Salto, and Paysandu route. The Mercurio, of the Mensagerias Fluviales Company, will be pro- bably put on the Asuncion route.

Mr Little was welcomed on 'Change to-day. He comes from New Zealand and goes South in a few days to look at Curumalan lands.

Mr Shennan leaves in the Tagus for Europe to-morrow.

Mr Nash goes home in the Cordillera.

Fair amounts of exchange to-day at 47½. The private banks took fair amounts in francs at 4.97 and 4.98. The State Banks did nothing.

Government Bills are in demand, but there is nothing doing as there are none in the market.

There was a rumor on 'Change that credits had been opened in Italy to the National Bank to the amount of one million dollars. There appears to be some foundation to the rumor.

The share market ruled active during after- hours. About fifteen hundred shares were sold for the end of the month. The market fluctuated violently and fell to 150½. One hundred shares were sold at this rate. Towards evening a reaction set in, and prices were pushed back to 151½; the market closed firm at this rate with buyers for the end of the month.

Advices from Santa Fe state that the rail- way to the colonies is being pushed ahead with activity. Materials from Europe are daily expected, and the expropriation of lands is progressing. Expropriations amount to 50,000 dollars up to the present.

The Board of the Western Railway has given orders to enlarge the Bragado station which at present is altogether too small for the traffic. The Board is making some re- forms at last. Deposits are the great want of the moment, and large sheds should be erected at stations in the grain districts, to store the immense quantities of grain of the northern and western districts.

Applications in discounts were large to-day; the state banks were liberal, but the private banks are holding back and the situation is no longer so easy as at the beginning of the month.

The National Government has chartered the British steamer Scotia to load provisions and materials and to carry emigrants to the distant settlements in the South.

The Pomona was two days delayed in front of the mouth of the Rio Negro owing to the rough condition of the bar. The weather down South has been very stormy during the fortnight. Rolling in front of the Rio Negro bar is an ordeal that baffles description in rough weather.

The gun boat Constitucion, at present in San Blas bay, is expected here towards the end of the month.

The Orione has left Genoa with 800 emi- grants and passengers for the Plate.

Mr. Castilla, the well-known broker, has bought about 14,000 head of cattle 'al corte' in the Southern districts at 160 $/$ per head.

We see in the *Times* that on the 14th ult. Uruguayan Unifieds advanced 1½ to 60. The advance of this stock is sound, and as the prosperity of Uruguay begins to be known we may look forward to a further rise.

The steamer Ingram, Captain Leisto, ar- rived down yesterday with 19,000 bags wheat loaded in Rosario by E. Peake & Co., her brokers.

The str. Ranmore also arrived down with 21,103 bags of wheat. 20 feet water on Martin Garcia Bar. She was also loaded by same firm, who have further engaged a full cargo for the str. Castle Eden which left to- day to load in San Lorenzo for Havre.

The Buenos Aires Pacific Railway Co. re- ceived the following materials in March, April and May:—

3,220 tons of steel Cannell rails
3 locomotives
12 passenger-cars
48 cargo waggons, &c.

The materials arrived represent a value of 2,700,000 m/n. The line is progressing.

Mr. Fitzherbert of Mercedes, Banda Oriental, was welcomed to-day.

The steel rails of the Western Railway now link the town of Pergamino to that of Rojas and the line will be soon opened to the public. Before many months elapse the locomotive will run to Junin also, and a fresh impetus will be given to everything on the Northern frontier of the Province. All Northern branches on this great railway, these new creased rolling stock, and it is to be hoped that the Board will order more than several thousand waggons for the service. The Rojas section will be inaugurated on the 9th prox.

We take the following from the London papers to hand:—

"The traffic receipts of the Buenos Aires Great Southern Railway Co., Limited, for the week ending May 11th, 1884, amounted to £15,146, against £10,707 for the correspond- ing period in 1883; increase, £4,439. The aggregate receipts for 45 weeks and one day, £584,730 against £515,492 for 45 weeks and two days in 1883, showing an increase of £69,238.

"Montevideo Gas Co.—Paying 6 o/o divi- dend, the Company puts by for last year £5,000 to reserve, raising this fund to the substantial sum of £50,000. The consumption of gas in Montevideo is increasing, and there is a marked improvement in the general affairs of that city, which is now one of the most rising places in the world. The prospects of this company are therefore good.

"Large failures in New York.—The storm so long pending in Wall Street has burst at last. On Wednesday several firms suspended payment, as did also the Metropolitan National Bank. The Metropolitan was a debtor to the Clearing-house to the extent of 500,000 dollars. The suspension is due to the fact that the depositors throughout the country were scared by the attacks on the President of the Bank, and inaugurated a general withdrawal. This, with the distrust engendered from the critical situation in speculative circles, caused the suspension. The Bank is not likely to re- sume business. The capital is $3,000,000, and the deposits were over $3,000,000.

"A complete panic reigned on the Stock Exchange when the result became known. The immediate cause of the complications arose out of the speculations of the President of the Second National Bank, who has re- signed. He carried five firms down with him. The 'pools' were forced to unload, and prices immediately dropped from 1 to 8 o/o.

"The Secretary of the Treasury telegraphed to Washington ordering the immediate pay- ment of the 137th call for bonds maturing on June 20th. If necessary he will order another call for $10,000,000, and take such steps as are necessary to relieve the situation.

"The Atlantic State Bank at Brooklyn has also suspended payment. No such wholesale failures have occurred in New York since the crisis of 1873, but the results will not now be nearly so disastrous, as most firms had made preparation for it, and for some time were on their guard. The total liabilities of the Banks and firms which have now failed are estimated at $20 millions. The Metropolitan National Bank has been allowed to resume business. The greatest surprise of all is the failure of Messrs Fisk & Hatch. Mr. Hatch was Pre- sident of the Stock Exchange. It is now known that Grant & Ward have been bankrupt for two years. Their liabilities extend to $14,000,000. It is believed that the worst of the crisis has passed, and accordingly large orders to buy particular stocks have been given from London."

The following is the hide report for the fort- night, it shows the business doing:—

Sales since 31st May to 14th June, 1884:—

Dry Cow Hides—

For North America 15,000 hides. Prices nominal.
From Entre Rios, 50 rls. gold 'al barrer'.

EDWARD CASEY
80—Reconquista—80

Banco de la Provincia

Recibe depositos voluntarios que no bajen de $400m/c. y $16 fts. de curso legal y oro efectivo.
Estos depositos de moneda corriente y moneda legal ganarán interes si permanecen 60 dias; pasados estos se los abona interes desde el dia de su entrada.
Los intereses se pagan en los primeros dias del mes ó en e momento de retirar los depositos; y los no cobrados durante el año se capitalizan concluido el del deposito.
Todo deposito á prendo se inscribe en una libreta que el Banco entrega al depositante, en la cual constan ademas las salidas por pago de intereses; no entregandose ninguno sino en vista de la libreta respectiva.
Recibe depositos comerciales, disponibles en todo momento como los anteriores.
Recibe depositos a oro pagaderos á la vista sin interes y á plazo de 60 y 90 dias, ó mas, los que serán devueltos en monedas de oro de curso legal.
Descuenta tres veces á la semana letras con firmas abonadas á plazos de 90 dias, y tambien pagarés de comercio desde siete dias hasta seis meses, con la condicion de ser abonados integros á su vencimiento.
Descuenta tambien a oro efectivo, pagarés de comercio desde siete dias hasta cuatro meses, con la condicion de ser abonados en la misma especie á su vencimiento.
De libramientos á tres dias vista sobre las Sucursales de Dolores, San Nicolás, Chivilcoy, Mercedes, Lobos, Salto, Azul, Bragado, Chascomus, Tandil, 25 de Mayo, Exaltacion de la Cruz, San Pedro, Pergamino y Las Flores.
Las Sucursales dan cheques contra el Banco al portador, nominales y cruzados.
El Banco abona comision á los corredores en la primera introduccion de las letras y pagarés á descuento.
Desde el veinte del corriente, y hasta nuevo aviso, regirá la siguiente tasa de interes y descuento para las operaciones á moneda corriente de curso legal y oro efectivo:

SE ABONA
Depositos comerciales m/c. y curso legal 3 o/o
Id particulares a premio..... 6 "

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.
Presta sobre hipoteca con reembolso á largos plazos.
Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f 2000 n el prestamo menos de $f.500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestros, y las cedulas que al presente da el Establecimiento son:—
Serie E.
Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.
Durante las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones para libertar el inmueble, en todo o parte, anticipandose al contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteo a la par, y con anticipacion de un trimestre.
Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

A Derangement of the Liver
THE CAUSE OF DISEASE IN THE
STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medicine, by
Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Chucose and Peptone, and in these forms enters the portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vein, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body, and assisting in the cell growth of the system.
Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—
1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.
All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill
(SUGAR COATED)
One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.
For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.
They are universal in their effects, and a cure can almost always be guaranteed.
Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.
For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.
CAUTION—To secure the genuine Haydock's Pills, observe that the signature of J. H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.
As Dr.

EDITOR'S TABLE

(Continued from 1st page)

In turning over the Archives of B. Aires, in order to transfer them to the National Government, the deed of the first sale of land in this city was unearthed from as much dust as three centuries could lay on it. The site sold was a whole 'manzana,' near Plaza Victoria, and the price paid was *nine pats gold*! The buyer and seller would be rather astonished if they could learn the value of the site to-day.

Smeredy, who so brutally murdered the poor girl Caroline Metz in Calle Corrientes some time ago, and escaped imprisonment for life here by the cleverness of his lawyer, has just been arrested in Hungary for murdering another woman under similar circumstances. Let us hope that Jack Ketch will have a job on him this time.

The winners of prizes at the 'inolvidable' 'Exposicion Continental' will have to wait a little longer than the 9th of July for their medals and diplomas. The Mint, we believe, has the medals ready, but there are no fewer than *three thousand* diplomas awarded, and each of these requires the signature of H.E. the President of the Republic. The Chief Magistrate cannot neglect state affairs, or ruin his health by remaining up all night to sign these precious diplomas, and so the matter stands. The large number of these diplomas takes a good deal from their value. The public are under the impression that every 'hijo de vecino' who exhibited anything, no matter what, was awarded either a prize or a diploma, and we believe the "vox populi" is quite right.

The papers announce a lot more fashionable and semi fashionable marriages. We should say that our statistical friend Mr. Coni will have to register more marriages for 1884 than in any year since he was born.

Monsieur Nerssant, leading actor of the French company at the Opera House, takes his benefit to-night in Dumas' "Demi-Monde." He deserves a full house and is sure to have it.

They are fighting away in poor Peru. The telegrams report several fights, in one of which 200 men were killed. The Chilians will have to return to Peru if the present wretched state of things contiues.

The National Deputies have 'archived' the Bills proposing agricultural colonies at Puan, Carhue and Guamini; also the Bill to authorise the Government to sell lands south of the rivers Negro and Neuquen, and the Bill to amend the Frontier Laws.

The English papers received by the Gironde report that prayers are being publicly offered for General Gordon's safety. Without being in the least irreverent, some of our home colleagues very properly suggest that the Madhi, who is so strong in the prayer line himself, will require some earthly arguments in the shape of powder, steel and lead before Gordon can be considered safe.

Our new and newsy colleague *The Messenger* appeared in nice new type on Saturday and says it already feels "fairly launched on the sea of journalism." There are, nevertheless, no signs of its being "at sea," in spite of its youth. We wish it favouring gales.

Captain Paul Boyton, who recently married a Chicago belle, has ceased to lead the life of a fish, and will henceforth devote his life to the business of manufacturing diving apparatus and to submarine engineering. It is about time that he should give Niagara and the public a rest.

A Rio paper says that Amicis is engaged, at a cost of 8000 dollars, to go to the United States and write a book about the Great Republic. Bosh!

A seriously drunken man asked a street Arab to hand him his hat which had rolled in the gutter. "What's the use of a hat to a man who has lost his head?" said the youngster as he grinned and passed on.

An unfortunate Englishman named George Staleu was found dead from cold on Friday morning in one of the large water pipes lying on the beach near the Gas House. This is the third death from exposure since the month began. A Refuge for tramps is wanted in this city, at least in the winter months.

A boy of 12 years of age was arrested on Friday in Calle Bolivar, in a state of helpless intoxication. Instead of going to school, the unfortunate child got into bad company, with the result stated.

Brown's Dentrifice

There is no tooth powder, paste, or wash, that will whiten and beautify the teeth like

Brown's Camphorated Dentrifice

Recommended by the principal dentists. Price 40 cents per bottle.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguento Holloway.

Este incomparable Balsamo cura los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo origen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

Se invitan a las personas que sean demandadas por los vendedores que expenden las Pildoras y el Unguento de Holloway, facultadas para que se sirvan al comunicarnos los pormenores, e inmediatamente para formalizar procesos legales contra los Ofuscadores y recompensare liberalmente a los Delatores, por el servicio que se tomen, comprometiendose a que no haya correspondencia de sus nombres.

Dysentery, Cholera Fever, Ague

Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne' or the Government Stamp. Overwhelming medical testimony accompanies each bottle.
